

OSA-2912-63

13 JUN 64

MEMORANDUM FOR: Assistant Director, Office of Elint

SUBJECT : Status Briefing

1. We have found in the past that when offices outside the Office of Special Activities are involved in research and development projects in support of OSA or directly affect our operations, it has been in the best interest for all concerned that periodic meetings be convened to insure maximum flow of information from R&D to operations and vice-versa.

2. In order to "kick" this off with the hope that it will become a continuing mechanism for interchange of ideas, it is requested that OEL present a status report briefing on those projects currently within your purview and that affect OSA operations, at your earliest possible convenience.
